May 2020.

Esteemed Visitor/Customer/Team Member

IGL supports the government's efforts in the global fight against terrorism, drug trafficking, human smuggling and illegal contraband. The Customs-Trade Partnership Against Terrorism ("C-TPAT") program of the United States Customs is designed to improve the security of shipments in international trade. Through this program, CBP works with the trade community to strengthen international supply chains and improve United States border security.

We are certified by C-TPAT since 2007 and we remain committed to comply with the security criteria. The security criteria address protocols and requirements such as: container security and inspection, Cibersecurity, Transportation Security, physical access controls, personnel security, procedural security, agricultural security, security training and threat awareness and information technology security.

This statement reminds you of our compromise of the minimum expectations for precautions and security measures that need to be taken in action to ensure the supply chains is protected against any potential threat.

Sincerily,

Jorge

Jorge Montamayor
Director of Operations
